# Certificate

for a climate protection donation

European Society of Gynaecological Oncology (ESGO)  
financed **268 Save80 stove sets**  
with atmosfair on Jun 13, 2024.

## What does your climate protection contribution accomplish?

Your climate protection contribution with the amount of 21,435 Euro finances:

## Fuel-efficient Save80 stove set

Families need up to 80 % less firewood when using the fuel-efficient Save80 stove. Through the innovative design, it also reaches higher temperatures than the often used three stone fireplaces, therefore emitting less smoke and contributing to better indoor air. With the stove the users receive three fitting pots and the Wonderbox. Thank you for your donation!

atmosfair operates its projects according to the Clean Development Mechanism (CDM) outlined in the Kyoto Protocol as well as the "Gold Standard" established by international environmental organisations. Independent organisations approved by the United Nations (e.g., TÜV) audit the projects' actual CO<sub>2</sub> reductions.

United Nations  
Framework Convention  
Climate Change
