GENERAL INFORMATION

Accreditation

The **27th European Congress on Gynaecological Oncology (ESGO 2026), Copenhagen, Denmark 26/02/2026–28/02/2026** has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **19.5** European CME credits (ECMEC®s).

Each medical specialist can claim only those hours of credit that they spend in the educational activity. Credits will be converted based on one (1) hour of participation equalling one credit for all activities.

Credit Breakdown

Thursday, February 26	8 credits
Friday, February 27	6 credits
Saturday, February 28	5.5 credits

Obtaining Credits

As a CME provider, ESGO must deliver the number of credits to participants based on their actual attendance, therefore the congress organisers are required to monitor the presence of each participant for each session of the event. One entrance of each session hall will be clearly marked “*CME credits*” where hosts will scan participants’ badges to monitor their participation in scientific sessions. The total number of credits based on participation will be provided after completing an evaluation survey.

International Recognition

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at <https://edhub.ama-assn.org/pages/applications>.

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.
