Dear ESGO members,

On behalf of Greenpeace International, I sincerely thank you for your generous contribution of EUR 12,500 in support of our work for environmental and climate protection.

We are particularly pleased that ESGO chose to support Greenpeace through your Environmental Sustainability Contribution. Your Environment & Sustainability Working Group is a wonderful example of how environmental sustainability is becoming an important part of the healthcare community, and we were especially interested to hear about your focus on the connections between environmental sustainability, climate, and health.

Your support means a great deal to us. It is encouraging to see organisations across different sectors recognising that a healthy planet and healthy communities are deeply connected.

We are very grateful for ESGO's confidence in Greenpeace and for the contribution made by your members and wider community. We look forward to staying connected and continuing the conversation with you and your colleagues.

With our warmest thanks,
